Red River Reproduction Center, agent for the above-named stallion, will herein be referred to as the Breeder. This service is engaged subject to the following:

1. An all-inclusive breeding fee of \$1,500.00 (Includes first shipment) is payable with this contract. The balance of all unpaid expenses, will be payable upon receipt of an invoice, or when the mare leaves the farm. Regular receiving and departure hours for visiting mares are 8am to 5pm. The Breeder requires 48-hour advanced notice, when the mare owner wishes to remove their mare(s) from the farm for the preparation of required papers and accounts. This contract is governed by the laws of the state of Texas.
2. A photocopy of the mare's registration papers, a veterinarian's health certificate, deworming and vaccination records shall accompany mare. If these are not presented upon mare's arrival, the Breeder shall have the attending veterinarians complete any tests, administer medication and evaluations at the mare owners expense. Flu, Rhino and Strangles vaccinations and deworming must be administered before the mare arrives. A current Coggins test shall be furnished upon delivery of the mare to Red River Reproduction Center.
3. The mare owner shall agree that each mare offered for breeding shall be in sound breeding condition and free from infection or disease. The mare owner will furnish Red River Reproduction Center written history of the mare. Any mare determined by the attending veterinarian, not to be sounding in breeding condition, shall not be bred. A mare owner may substitute another mare within that breeding season.
4. The Breeder agrees to diligently try to settle the above-named mare, and shall have sole discretion in determining the best practices for breeding the mare. If the mare does not settle, the Breeder shall be held harmless. There will be a rebreed fee of \$500.00 if the mare fails to produce a live foal.

5.Live Foal Guarantee. This means that the foal shall stand and nurse. It is understood that if the mare proves barren, aborts foal, or the foal is stillborn, a return season will be guaranteed the following year only, provided written notification by a licensed veterinarian, is given within seven days of the mare slipping, or producing a non-viable foal. The mare owner certifies that a loss of the foal, does not result from any act or omission of the owner, subsequent to the mare's departure. Booster vaccinations for Rhinopneumonitis must be administered as indicated by the manufacturer for pregnant mares, as the pregnancy progresses. Failure to do this will void the live foal guarantee.

6.The breeding season for this contract shall begin February 14, 2022 and close June 17, 2022 of the year covered by this contract. Collection days are Monday, Wednesday & Friday. No new mares will be accepted for on-site breeding after the first of June, unless agreed by all involved parties.

7.It is further agreed that should the above named stallion die, become unfit for service, or, if the above named mare dies, during the breeding season, then the mare owner may substitute another mare, or breed the above mare to another stallion on the Farm, as agreed upon by all involved parties.

8.Wiaver of liability. It is understood that the Breeder, the Farm, its Owners, the stallion owner, employees, veterinarians, and guests shall not be held liable for any injury, escape, disability, or death of any horse on it's premises. The above named mare owners, whose horse(s) are under the care of Red River Reproduction Center, will not be held liable, or responsible for any damage, injury, or death to the Farm's stallions, employees, veterinarians, or other animals in the care of Red River Reproduction Center, weather or not caused by the above named mare.

10.When the mare owner signs and returns a copy of this contract to the Breeder, it will then be a binding contract on both parties, subject to the above terms and conditions. This contract is not valid unless completed in full.
